Celebrating 40 years of innovation through application

## BETTER BUILT BY BARKER

All Barker trailers are designed in house by our engineering team using only quality components. Trailer frames are then built 'from the ground up' by our highly skilled fabricators and welders at our Woodend and Maryborough plants. Once this stage is complete, the frames are then grit blasted and painted, ready for final fit-out and delivery to the customer. We believe this is the best way to build a trailer and if you want to call in, we'll be happy to show you why.

## INNOVATION THROUGH APPLICATION

The need to constantly solve problems drives the process of innovation. Client feedback is invaluable – our clients operate the equipment, if they suggest an improvement or identify a problem we can implement changes and modify the design to be more productive.

**Toolboxes**  
Jumbo toolbox

**Loadbinders**  
Manual and ratchet style fitted in track

**Timber rack**

**Gates**  
Steel and Aluminium gates and storage

**Dangerous Goods**  
Fire extinguishers and DG signage

**Road Train**  
Rear crossmember with air and electrical to the rear

## Standard Options

### Configurations

- Bogie
- Tri
- Command Steer

### Necks

- Low Profile
- Deep Neck

### Suspensions

- Air Bag
- Spring

### Brakes

- Drum Brake
- Disc Brake
- EBS Brakes

### Wheels, 22.5, 19.5, 17.5

- Alloy Machined, Polished and Durabrite
- Steel Disc
- Spider

### Coaming Size (c/w tie rail and gate pockets)

- 100mm (4")
- 125mm (5")

### Flooring

- Alloy Floor
- 3mm Steel c/plate
- 5mm Steel c/plate
- 4mm Plain Hardox

### Lighting

- LED Lights used throughout
- Wiring in Conduit

### Guards

- Std Flaps Front and Rear
- Truckmate Plastic
- Stainless Steel

### Gates

- 5' or 6'
- Cross bows, chains and latches

### Water Tanks

- Plastic
- Alloy
- Stainless Steel

### Tie Downs

- Keyhole Style
- RHS Pin Style

### Twistlocks

- 1 20' set
- 1 40' set
- 2 Sets (2x20' – 1x40')
- 3 Sets (1x20' – 2x20' – 1x40')

### Road Train

- Ringfeder fitted c/w Air and Electrics
- Provision c/w Air and Electrics

### Toolboxes

- 4' Standard
- Mesh timber boxes
- Jumbo sized toolboxes

### Pipe Bolsters

- RHS in floor (preferred)
- RHS in coaming
- 1.2m Straight and dog legged bolsters
- Bolster storage
